

METAL WORK S.p.A.
Via Segni 5
25062 Concesio(BS)
ITALIA

with reference to

European Parliament and Council Regulation
1907/2006/CE

concerning the registration, evaluation, authorisation and restriction of chemicals (REACH)

hereby makes the following declaration:

- All the substances contained in our products requiring registration will be pre-registered by us or by a player upstream of our production cycle.
- Consequently, **our customers will not be required to register any substances** associated with our products.
- Our company only converts substances contained in finished or unfinished products acquired from suppliers.
- The only added substances that could hypothetically require registration (painting products) are handled in quantities well below one tonne per year and at concentrations less than 0.1% by weight of product; such products are therefore exempt from pre-registration.
- We have launched a survey of all our suppliers to verify their position with respect to the REACH regulation.
- Our main suppliers have already certified that they are REACH approved or have implemented a REACH project.
- We are committed to complying with all the applicable legal requirements once we have definitively established the situation regarding the entire production cycle.

Concesio, October 2008

Product manager

Ing. Giorgio Guzzoni.
